**THE FEDERAL GOVERNMENT
PROMISED REAL CHANGE FOR
MIGRANT WORKERS. LET'S HOLD
THEM TO THEIR PROMISE.**

Migrant workers employed under the Temporary Foreign Workers Program (TFWP) put food on our tables, take care of our children and build our communities. The TFWP in its current form violates basic human and labour rights of migrant workers. Across Canada, people are coming together to call for changes that are inclusive and expand rights for all. Join them. Call on the government to implement reforms that emphasize fairness. This means:

MOBILITY

Open Permits: Migrant workers should not be tied to a single employer

VOICE

Migrant workers should get a say. It's time to undo the harm done by the previous government.

EQUALITY

A robust permanent immigration system where migrant workers get permanent status on arrival.

A recent report by Federal parliamentary committee recommended open permits, and permanent status for migrant workers. Let's make this a reality.
